

# 11 Quart Drainer Container ®

**The advantages of our 11 quart “do-it-yourself” oil recycling container include:**

**Capacity:** Holds up to two complete oil changes on most cars. It is perfect for two car families.

**Durable and Reusable:** Drainer Containers can be used again and again insuring cost-effective collection. Over a lifetime, the cost per use is just pennies!

**Screw-on Cap and Screw-in Plug:** Our closures provide a tight, positive seal. No worries about leaks, drips or spills.

**Self-venting neck:** Our unique design provides the “do-it-yourselfer” with a simple and fast means of filling and emptying the container without the need to open and close a separate vent plug.

**Large Sturdy Handle:** Extra large handle provides a comfortable grip for easy carrying and pouring.

**Leak-Proof Design:** Even when full, our unique design prevents fluids from coming in contact with the cap or plug, thus minimizing the possibility of dangerous and messy spills or leaks.

## “A Clean Solution to a Messy Problem”

Absolutely the cleanest, safest and most convenient way to collect, store, transport and recycle used oil!

Study after study has proven that participation in curbside recycling programs increases substantially when residents are provided recycling containers.

If you have a curbside program for used motor oil, or if you are thinking about starting one, increase your participation rates by distributing 11 quart Drainer Containers to the households in your community.

Even if you do not have curbside pick-up, offering Drainer Containers through recycling drop off centers is a smart move. Re-useable containers can help reduce the amount of motor oil that is poured into sewers or dumped directly on the ground, making your community safer and cleaner for everyone.
